CLASSIFICATION OF ORGANIC COMPOUNDS

Terminating P.F.G.	Functional Group	Special Secondary Suffix (if carbon is not included in Principal Part)
Carboxylic acid	$\begin{array}{c} \text{O} \\ \parallel \\ -\text{C}-\text{OH} \end{array}$	-carboxylic acid
Ester	$\begin{array}{c} \text{O} \\ \parallel \\ -\text{C}-\text{OR} \end{array}$	Alkyl ...carboxylate
Acid halide	$\begin{array}{c} \text{O} \\ \parallel \\ -\text{C}-\text{X} \end{array}$	-carbonyl halide
Amide	$\begin{array}{c} \text{O} \\ \parallel \\ -\text{C}-\text{NH}_2 \end{array}$	-carboxamide

Reading Comprehension/Social Studies

Name _____ Date _____

The Travels of Marco Polo

The famous explorer Marco Polo was born in the year 1254 to a family of merchants. Even then, the city where he was born--Venice--was a center for commerce and trading in the Mediterranean region. Because Marco's family was wealthy, he received a good education, learning about classical authors, the theology of the Latin Church, and both French and Italian. He also developed an interest in history and geography that would stay with him for the rest of his life.

When Marco was only six years old, his father Niccolò and his uncle Maffeo left for a journey to Cathay (China). By the time they returned, he was 15. When Marco was 17, he accompanied his father and uncle on their second journey to Asia. They had an advantage over other travelers of the time: the emperor Kublai Khan had presented them with a golden tablet a foot long and three inches wide, inscribed with the words "By the strength of the eternal Heaven, holy be the Khan's name. Let him that pays him not reverence be killed." The golden tablet was like a special VIP passport, authorizing the travelers to receive horses, lodging, food and guides as they required.

They had a long and difficult odyssey, mostly on horseback, to reach China. The Polos traveled through Armenia, Persia, and Afghanistan, over the Pamir Mountains, and along the Silk Road, the main travel route for traders. Marco kept detailed journals, where he recorded his impressions of the terrain. When he first saw the great Gobi Desert, more than 500,000 square miles (805,000 km) of sand, he wrote: "This desert is reported to be so long that it would take a year to go from end to end... There is nothing at all to eat."

The Polos stopped for a year in the Mongol region, where they learned about the lives and civilization of the people there. When the Polos reached Cathay to stay with the emperor Kublai Khan, Marco impressed the ruler with his knowledge of Mongol traditions. The Polos had traveled 5600 miles (9000 km) in over three and a half years to reach Cathay.

Marco had mastered four languages by that time, and spent 17 years in the Khan's court, learning about trade, industry, and a new paper currency that was much easier to transport than heavy gold or silver. The Chinese had also invented a way of sending messages by which different horsemen passed letters on to one another like a relay race. The Polos told the Khan of their homeland, especially of the Roman church and the Pope, about whom Khan was curious.

Iupac nomenclature class 10 worksheet pdf.

Em nomenclatura química, a Nomenclatura IUPAC de compostos inorgânicos é o método sistemático de nomear componentes químicos inorgânicos, conforme recomendado pela União Internacional de Química Pura e Aplicada (IUPAC). Except for claims for misappropriation of trade secrets or breach of confidentiality obligations, all disputes and actions arising out of or related to this Agreement are subject to the exclusive jurisdiction of the state and federal courts in Wilmington, Delaware and you consent to personal jurisdiction in those courts. Intel is providing the Materials for free and Your use of them is at Your own risk. The Materials are subject to export controls under applicable government laws and regulations, including in the U.S. You must comply with applicable laws and regulations, including U.S. and worldwide export regulations. The Materials may include software subject to an open source license, including licenses recognized by the Open Source Initiative (). nomenclatura IUPAC There is also an IUPAC nomenclature of organic chemistry. 9.5 Severability. 2.3 No Implied License. 2.6 Third-Party Software. 1.3 "Materials" means software or other collateral Intel delivers to You under this Agreement. 1.1 "Including" means including but not limited to, whether or not capitalized. The rest of the provision remains fully enforceable. Arene substitution patterns are part of organic chemistry IUPAC nomenclature and pinpoint the position of substituents other than hydrogen in relation to each other on an aromatic hydrocarbon. You must maintain all copyright or other proprietary notices in the Materials. You will be liable for your subcontractor's acts or omissions including breach of confidentiality. Version 2021 of ChemSketch adds new features, including representation of complex molecules with graphical objects, and improves existing ones. Subject to the terms of this Agreement, Intel grants to You, for the Term, a limited, nonexclusive, nontransferable, revocable, worldwide, fully paid-up license under Intel's intellectual property rights in the Materials, without the right to sublicense, to use the Materials in the development of Your Products, including modifying Materials delivered as source code, and distributing the Materials, including Your modifications, in object form, embedded in or for execution on Your Product and under terms and conditions consistent with Your rights and obligations under this Agreement. Race against time to form chemical compounds (IUPAC Nomenclature) in this new and exciting educational game! Corrida contra o tempo para formar os compostos químicos (Nomenclatura IUPAC) neste jogo educativo novo e excitante! In chemical nomenclature, the IUPAC nomenclature of inorganic chemistry is a systematic method of naming inorganic chemical compounds, as recommended by the International Union of Pure and Applied Chemistry (IUPAC). If we don't resolve the dispute within 60 days after the mediation demand, either of us may begin litigation. All sections except Section 2.1 survive termination of this Agreement. chemical identification of the test chemical according to IUPAC nomenclature. CAS-number, batch, lot, structural formula and purity; identificação química do produto em estudo, de acordo com a nomenclatura IUPAC, número CAS, lote, fórmula estrutural e grau de pureza; the name in the IUPAC Nomenclature, for dangerous substances within the meaning of Directive 67/548/EEC, without prejudice to paragraph 2(f) and (g). O nome na nomenclatura IUPAC, para as substâncias perigosas na aceção da Directiva 67/548/CEE, sem prejuízo do disposto nas alíneas f) e g) do n.º 2, the identification of dangerous substances; chemical name, CAS number, name according to IUPAC nomenclature, a identificação das substâncias perigosas; designação química, número CAS, designação segundo a nomenclatura IUPAC. Name(s) in the IUPAC nomenclature or other international chemical name(s) Nome(s) na nomenclatura IUPAC ou outro(s) nome(s) químico(s) internacional subject to Article 24 of Regulation (EC) No 1272/2008, the name in the IUPAC nomenclature for active substances referred to in point (a) of paragraph 1 that are only used as one or more of the following: Sob reserva do disposto no artigo 24.º do Regulamento (CE) n.º 1272/2008, a denominação na nomenclatura IUPAC das substâncias activas referidas na alínea a) do n.º 1, que apenas sejam utilizadas numa ou mais das seguintes formas: (a) the nature of such flavouring substances, such as the chemical formula, the CAS number, the EINECS number, the Iupac nomenclature, their origin and, if necessary, the conditions for their use; a) A natureza das substâncias aromatizantes, como a fórmula química, o número CAS, o número EINECS, a nomenclatura IUPAC, a sua origem e, se

necessário, as condições de utilização; In the IUPAC nomenclature, however, "butane" refers only to the n-butane isomer (which is the isomer with the unbranched structure). 9.6 Waiver. You may disclose the Materials to other persons or entities, or disassemble the Materials provided in object form (except as specifically required under Section 2.5), or (c) use the Materials to violate or aid in the violation of any international human right. This collected information may include product name, product version, time of event collection, license type, support type, installation status, hardware and software performance, and use. IUPAC Nomenclature of Organic Chemistry (online version of the "Blue Book") If you know the fundamentals of the IUPAC nomenclature you should be able to interpret a molecular structure from its IUPAC name, at least for simple structures. This Agreement and the Materials are Intel confidential information and subject to Your valid corporate non-disclosure agreement with Intel (CNDA). You will indemnify, defend, and hold Intel harmless from any allegation against Intel arising in connection with Your use of the Materials and You will pay all of Intel's losses, liabilities, and costs (including attorneys' fees) arising from the allegation. This Agreement is governed by USA and Delaware law without regard to conflict of laws principles.
Todavia, na nomenclatura IUPAC, 'butano' designa apenas o isômero n-butano. The Materials are provided "as is," without any express or implied warranty of any kind including warranties of merchantability, non-infringement, title, or fitness for a particular purpose. 10. 1.2 "Intel Components" means a hardware component or product designed, developed, sold, or distributed by Intel or its affiliates. If any liability is found, Intel's total, cumulative liability to You will not exceed \$100.00 U.S. for all claims arising from or related to this Agreement. Deseja reconsiderar? Acetilação (ou na nomenclatura IUPAC, etanolação) descreve uma reação que introduz um grupo funcional acetila em um composto orgânico. You must not export, import, or transfer the Materials to any prohibited or sanctioned country, person, or entity. Generic name, chemical name according to IUPAC nomenclature, other generic international names and abbreviations. NO WARRANTY. 10.4 Survival. If You are accepting this Agreement on behalf of or in conjunction with Your work for Your employer, You represent and warrant that You have the authority to bind your employer to this Agreement. 1.5 "Your Products" means products developed or to be developed by or for You that include an Intel Component executing the Materials. This Agreement will not become effective, or will automatically terminate, in the absence of a CNDA. CONFIDENTIALITY. You may not provide Fedora software or technical information to individuals or entities located in one of these countries or otherwise subject to these restrictions. 8. Ownership of the Materials and related intellectual property rights is unchanged. Except for any non-disclosure agreement between you and Intel, this Agreement constitutes the entire agreement, and supersedes all prior agreements, between Intel and You concerning its subject matter. No third party will have any rights under this Agreement. 1.4 "You" or "Your" means you or you and your employer and its affiliates, whether or not capitalized. You are also responsible for compliance with foreign law requirements applicable to the import, export and use of Fedora software and technical information. Upon termination of the Agreement, the licenses to You will immediately terminate and You must cease using the Materials and destroy all copies in your possession and direct Your subcontractors to do the same. TERM; TERMINATION; SURVIVAL. Read below for details, and contact us for help upgrading your software. Intel respects Your privacy. Nothing in this Agreement limits any rights under, or grants rights that supersede, the terms of any applicable open source software license. It covers Einecs names, which make use of the Iupac nomenclature, or CAS names, which clearly offer a suitable identification of the ingredient. Your use of any third-party software is subject to Your compliance with the license You obtain directly from that third-party. 5. The Materials may include pre-release software or algorithms and may not be fully functional. OWNERSHIP. LIMIT ON LIABILITY. In these guidelines the expression 'Chemically specified substances', means chemical substances for which a chemical name is agreed according to IUPAC nomenclature. 9.7 Entire Agreement. Nothing in this Agreement requires Intel to grant any additional license. Termination of this Agreement will not terminate the CNDA. Intel is not required to maintain, update, or support the Materials. If you give Intel comments or suggestions related to the Materials, Intel confidential information provided in connection with this Agreement, or Intel Components, Intel can use them in any way and disclose them to anyone, without payment or other obligations to you. You must not use the Materials for the development, design, manufacture, or production of nuclear, missile, chemical, or biological weapons. By downloading Fedora software, you acknowledge that you understand all of the following: Fedora software and technical information may be subject to the U.S. Export Administration Regulations (the "EAR") and other U.S. and foreign laws and may not be exported, re-exported or transferred (a) to any country listed in Country Group E:1 in Supplement No. 1 to part 740 of the EAR (currently, Cuba, Iran, North Korea, Sudan & Syria); (b) to any prohibited destination or to any end user who has been prohibited from participating in U.S. export transactions by any federal agency of the U.S. government; or (c) for use in connection with the design, development or production of nuclear, chemical or biological weapons, or rocket systems, space launch vehicles, or sounding rockets, or unmanned air vehicle systems. It governs Your use of the Materials. Either party may terminate this Agreement, with 30 days written notice, at any time for any reason. Intel does not license You to make, have made, use, sell, or import any Intel technology or third-party products, or perform any patented process, even if referenced in the Materials. LICENSES. 10.1 Term. 6. Any other licenses from Intel require additional consideration. You may not download Fedora software or technical information if you are located in one of these countries or otherwise subject to these restrictions. No waiver of any provision of this Agreement will be valid unless in a writing signed by an authorized representative of the waiving party that specifies the waived provision. This LIMITED DISTRIBUTION LICENSE AGREEMENT ("Agreement") is a contract between You and Intel Corporation and its affiliates ("Intel"). You may not assign Your rights or obligations under this Agreement without Intel's prior written consent. 2.2 Restrictions. Padrões de substituição de arenos relacionada à isomeria de posição de arenos são parte da nomenclatura IUPAC da química orgânica e ponto fundamental de posição de outros substituintes que não o hidrogênio em relação a outros em hidrocarbonetos aromáticos. 1. If You do not agree, do not use the Materials and destroy all copies. GENERAL. A Intel exige um contrato de licença aceito para baixar este arquivo. This Agreement will automatically terminate upon (a) Your breach of the Agreement, (b) an allegation that you do not have authority to bind your employer to these terms, or (c) Your assertion that an Intel Component, the Materials, or any product based on any Intel Components or the Materials infringes Your patents. Tropanos - são compostos orgânicos nitrogenados bicíclicos (nomenclatura IUPAC: 8-Metil-8-azabicyclooctano), de fórmula química elemental C8H15N. Acetylation (or in IUPAC nomenclature ethanoylation) describes a reaction that introduces an acetyl functional group into a chemical compound. 7. 4. 10.3 Effect of Termination. 9. 8.2 Data Collection. DEFINITIONS. Except as authorized in Section 2.1, you must not disclose this information to anyone, including the U.S. government. Existe também uma nomenclatura IUPAC da química orgânica. This Agreement begins upon Your acceptance of its terms and continues until terminated under Sections 3 or 10.2. 10.2 Termination. If we can't resolve the dispute in 30 days, either of us may demand mediation and will then try to resolve the dispute with an impartial mediator. Nas presentes linhas diretrizes, a expressão «substâncias quimicamente especificadas» significa substâncias químicas para as quais existe uma designação na nomenclatura IUPAC. PRIVACY; DATA COLLECTION 8.1 Privacy. A listing of any such third-party software may be in a text file accompanying the Materials. By downloading, installing, or using the Materials, You agree to these terms. 2.5 Open Source Licenses. If a court holds a provision of this Agreement unenforceable, the court will modify that part to the minimum extent necessary to make that part enforceable or, if necessary, to sever that part. 9.4 Compliance with Laws. 2.4 Feedback. Estes exemplos podem conter palavras coloquiais baseadas nas suas pesquisas. The United Nations Convention on Contracts for the International Sale of Goods does not apply. Intel will not be liable to You under any legal theory for any losses or damages in connection with the Materials, including consequential damages, even if the possibility of damages was foreseeable or known. Except for the express license in Section 2.1, Intel does not grant any express or implied licenses to you under any legal theory. disinfectants: characterisation and labelling according to IUPAC nomenclature. If we have a dispute regarding this Agreement (other than a dispute over misappropriation of trade secrets or breaches of confidentiality obligations), neither of us can file a lawsuit or other regulatory proceeding unless the complaining party provides the other party a detailed notice of the dispute and our senior managers attempt to resolve the dispute. Designação genérica, designação química segundo a nomenclatura IUPAC, outras designações e abreviaturas genéricas internacionais. Improved Data Import New Features Improved Features Estes exemplos podem conter palavras rudes baseadas nas suas pesquisas. 9.3 Governing Law; Jurisdiction. For information about why and how Intel may collect and use information from Your use of the Materials, see . These liability limitations are a fundamental basis of our bargain and Intel would not have entered into this Agreement without them. Não foram achados resultados para esta aceção. Inclui as denominações Einecs, que recorrem à nomenclatura IUPAC, e as denominações CAS, que proporcionam uma identificação adequada e inequívoca do ingrediente em causa. 2. INDEMNITY. 3. Palavras frequentes: 1-300, 301-600, 601-900Expressões curtas frequentes: 1-400, 401-800, 801-1200Expressões compridas frequentes: 1-400, 401-800, 801-1200 By clicking on and downloading Fedora, you agree to comply with the following terms and conditions. 9.2 Dispute Resolution. Aceito os termos do contrato de licença Não aceito os termos do contrato de licença Seu download começará automaticamente. That signed waiver will not constitute a waiver of any other provision. A party's failure or delay in enforcing any provision will not operate as a waiver. Se o utilizador conhece os fundamentos da nomenclatura IUPAC deverá ser capaz de interpretar uma estrutura molecular a partir do seu nome IUPAC, pelo menos em estruturas simples. Some downloaded software included in the Materials may generate and collect information about the software and usage and transmit it to Intel to help improve Intel's products and services. They are bicyclic organic nitrogen compounds (IUPAC nomenclature: 8-Methyl-8-azabicyclooctane), with the chemical formula of C8H15N. 9.1 Assignment. 2.1 License.
